INTRODUCTION

Hello everyone, my name is Sajal Pandey. I’m currently pursuing my Bachelor of Technology at Rungta International Skills University , Bhilai , CG. I’m a passionate learner who enjoys exploring new technologies and solving real-world problems through coding and innovation.

I’m also focused on developing my communication skills and overall personality to grow both professionally and personally. My goal is to become a skilled software engineer and contribute to impactful projects in the tech industry.

MY DREAM JOB

Software Engineer

My dream is to become a skilled software engineer who creates innovative solutions, works with modern technologies, and contributes to impactful projects that improve people’s lives through technology.

A Software Engineer is a professional who designs, develops, tests, and maintains software applications that make everyday tasks easier and businesses more efficient.

Juliana Silva

MY EXPERIENCES

Learned C++ and began exploring programming fundamentals 2022-2023

Focused on content creation and improving technical understanding. 2023-2024

Learning DSA (C++), HTML, CSS, and web development basics 2024-2025

VISION & MISSION

Vision

To become a skilled and creative technologist who builds impactful solutions, inspires innovation, and contributes to the growth of technology and society.

Mission

To become a skilled and creative technologist who builds impactful solutions, inspires innovation, and contributes to the growth of technology and society through continuous learning and real-world application.

SKILLS DEVELOPMENT

Technology skills

On the technical side, I’m developing my skills in C++, Data Structures & Algorithms, and Web Development (HTML, CSS). My goal is to strengthen my logical thinking, problem-solving, and creativity through coding and real-world projects, becoming a competent and innovative technologist.

Communication Skills

I’m actively working on improving my communication skills — focusing on public speaking, confidence, body language, and clarity of expression. I believe strong communication helps build connections, express ideas effectively, and develop leadership qualities that are essential in any professional field

CAREER GOALS

In 1 Year

- Build a strong academic foundation in core subjects.
- Master C++ and Data Structures & Algorithms (DSA).
- Develop good communication skills and start focusing on fitness

In 5 Year

- Skilled in C++, DSA, and development with project and internship experience.
- Physically fit with strong communication and confidence.
- Stable tech career with clear path toward filmmaking dream.
