

## Human-Generated Content

- Shows personal understanding and real-life examples.
- Has a natural flow and unique writing style.
- Ideas are original and based on the student's thinking.
- Can express feelings, doubts, and opinions clearly.
- Writing may have small mistakes, proving it is authentic human work.

## AI-Generated Content

- Gives quick information but without personal experience.

- Writing style is formal and structured, sometimes robotic.
- Ideas are general and may repeat common internet statements.
- Cannot include real emotions or classroom-based examples.
- Highly polished grammar may look too perfect to be student work
